Winston & Strawn's Brussels office further establishes our preeminent EU antitrust/competition practice at the epicenter of European competition law. The office is located on the famous Rue de la Loi or Wetstraat, which connects the Belgium Federal Parliament with the European Commission headquarters

—the Berlaymont—and the Justus Lipsius, home to the Council of the European Union.

Our avocats offer comprehensive knowledge across the full spectrum of competition practice and European law and have spent time working for regulators and in academia. We handle complex and critical competition matters before the European Commission and national competition authorities across disciplines, including cartels, merger control, commercial arrangements, compliance, EU sanctions, trade rules/export control, state aid, free movement, competition litigation, regulated sectors, and government and regulatory affairs.
