

Winston Achieves WILEF Gold Standard Certification

OCTOBER 18, 2018

Winston & Strawn is pleased to announce that we have been named a 2018 WILEF Gold Standard firm. WILEF—Women in Law Empowerment Forum—Gold Standard Certification is a key metric for assessing progress toward achieving greater diversity with respect to women in large law firms.

WILEF Certification emphasizes the leadership roles attained by women partners, rather than a firm's policies or practices or overall number of women partners. WILEF Gold Standard firms are those with 300 or more practicing lawyers in the United States in which women represent a meaningful percentage of their equity partners, their highest leadership positions, their governance and compensation committees, and their most highly compensated partners.

This achievement is a direct result of the firm's commitment to meaningfully increase the [diversity of our Executive Committee](#) and leadership in implementing the [Mansfield Rule](#).

Learn more about Winston's [commitment to diversity and inclusion](#) and our efforts to move the needle in a positive direction.
