Annie advises investors and both private and listed companies on domestic and cross-border transactions, with a focus on mergers and acquisitions and capital market transactions.

With a focus on mergers and acquisitions and securities law, Annie advises and assists private and listed companies, their shareholders and management team, as well as investors on domestic and cross-border mergers and acquisitions, mergers of equals, and strategic alliances.

Annie has extensive experience with advising on M&A transactions involving listed companies (takeover bids, delisting, share exchanges and mergers) and on capital market transactions (IPOs, private placements, and complex equity-linked securities issuances). She has also assisted SPACs, their sponsors, and underwriters in connection with SPAC IPOs, as well as SPACs and targets in the context of business combinations.

Convinced that the leading companies of tomorrow will be the ones having anticipated and included the social and environmental challenges in their business model and organization, Annie also assists listed companies, board members, and shareholders in taking into account these challenges and their legal implications with the view to building a better governance and a sustainable economy.
