

Winston & Strawn Headline Sponsors *The Legal 500* Middle East Dispute Resolution Summit

MAY 1, 2019

Winston & Strawn is delighted to be the headline sponsor of *The Legal 500* Middle East Dispute Resolution Summit on 1 May 2019 at the Mandarin Oriental Jumeira, Dubai.

This one-day summit will bring together prominent in-house counsel from across the Middle East, along with leading practitioners and thought leaders to discuss the changing face of arbitration, litigation, corporate governance, and compliance in the region.

We are proud to be joined by renowned neuroscientist Dr. Helena Boschi, who will be speaking on the neuroscience of leadership. The topic of the session will be focused on how lawyers can draw on neuroscientific principles to communicate with and manage their teams for maximum performance.

The headline panel discussion “Setting the scene: The role of GCs in identifying and minimising litigation and regulatory risks,” will be moderated by Winston’s Ben Bruton, head of Middle East Dispute Resolution, and will also feature Abbe Lowell, co-chair of Winston’s White Collar, Regulatory Defense & Investigations Practice.

We are also pleased to announce that Jeffrey Kessler, co-executive chairman, and one of the world’s leading antitrust, sports law and trial lawyers—who recently received a victory in a headline trial that changed the face of antitrust law in the U.S. college sports industry—will be interviewed during the Fireside Chat.

The event is free to attend for in-house counsel. To register for the conference, please visit the [Legal 500 Middle East Disputes Summit](#) page.
