

International Trade Secret Laws

JUNE 19, 2019

Join a panel of cross-functional Winston & Strawn LLP trade secrets lawyers for a four-part webinar series.

The second webinar in this series, “International Trade Secret Laws,” included:

- an overview of trade secret laws;
- legislative developments & cases on trade secret infringement in China and the EU;
- recent developments, challenges, and cautionary tales in South Korea, Japan, and the EU;
- other considerations for cases with international components;
- predictions for the future.

View and listen to the presentation from the first webinar [here](#).

Save the Date

The upcoming webinars will feature different speakers from multiple Winston offices and practice groups, and will cover the following topics:

September - Criminal issues relating to trade secret theft, including an overview of the types of criminal cases the Department of Justice has pursued, the pros/cons of referring a trade secret matter to law enforcement, and special considerations when investigating trade secret theft

December - Litigation considerations relating to trade secrets, including types of available damages, how to craft injunctive relief, and interesting developments/trends from 2019

View and listen to the presentation from the first webinar in the series [here](#).
