

Private Equity in Hong Kong and China - Third Edition

SEPTEMBER 25, 2019

Winston & Strawn attorneys recently contributed the third edition of *Private Equity in Hong Kong and China* by LexisNexis. The book provides an overview of the main issues, common procedures, and documentation involved in each stage of a private equity investment. Also included in this new edition are legislative changes with impact on private equity investments such as the new foreign investment law and data privacy regulations in China, compliance considerations after a private equity investment is made, and an update on the listing regimes in Hong Kong and the U.S. with an emphasis on special purpose acquisition companies (SPACs). It also discusses offshore elements, such as the role played by offshore tax havens in the structuring of funds and investments.

Guided through each stage of a transaction, from deal-structuring, deal-financing to exit strategies, readers will benefit from key concepts, sample transaction documents, explanatory notes, and useful insight into investment strategies.
