

COVID-19: Updated UK Government Response

APRIL 30, 2020

On March 2020, the UK Government (**the Government**) set out a package of temporary, timely, and targeted measures to support public services, people, and businesses through this period of disruption caused by COVID-19. Since the initial announcement, these broadly described measures have continued to evolve and be refined as they are put into place.

Set out in the link below is a summary of some key measures included in the package to support UK businesses.
