Alternative Financing Sources – Potential Opportunities for Public Companies

JUNE 9, 2020

On June 9, members of Winston's <u>Capital Markets & Securities practice</u> hosted a webinar on timely guidance for companies on several financing alternatives in the current market environment. They provided an in-depth discussion, as well as emerging trends of the following financing alternatives:

- Convertible Notes with concurrent hedging transactions
- · Rights Offerings
- At-the-Market (ATM) Offerings
- Private Investment in Public Equity (PIPE) Offerings
- Baby Bonds

The speakers offered practical tips and strategies on how to navigate each of these alternatives.
