

Winston Associates Lead Next Generation Lawyers Junior Committee

FEBRUARY 24, 2021

Next Generation Lawyers recently announced the newly formed Junior Committee, created to enhance junior leadership and representation within the organization. The Winston-led Junior Committee is dedicated to creating and advancing content, events, and other action items to empower junior attorneys seeking to obtain more substantive experiences inside and outside of the courtroom. The Junior Committee is comprised of a diverse group of junior attorneys practicing in firms, in-house departments, and judicial clerkships across the country. The group includes attorneys from New York, California, Florida, Washington, D.C., Texas, and beyond. These young lawyers engage in practices of general litigation, international arbitration, intellectual property, private equity, and mergers and acquisitions among others. The diversity of perspectives in the committee uniquely positions the Junior Committee to assist in furthering NextGen's core mission – to empower the next generation of lawyers.
