

Winston Sponsors The 2021 Deal Economy: Predictions and Perspectives Conference

SEPTEMBER 21, 2021

Winston & Strawn sponsored The Deal Economy on September 21, 2021 in New York, where a former Winston Partner moderated the panel, “How are SPACs Impacting the M&A Landscape?”

During the panel, they discussed how SPACs, also known as blank-check companies, have seen a recent resurgence but with new regulatory scrutiny, high-profile enforcement actions, high redemptions, and longstanding concerns about public shell companies. The panel also explored the current state of the SPAC market, reactions to the recent downturn, and what it will take to work through current issues.
