

Around the Block(chain) with Winston CLE Series

MARCH 16-APRIL 12, 2022

Blockchain technologies offer untold opportunities but also pose a host of challenges in implementation and enforceability—enterprises involved in this industry are finding themselves on uncharted legal ground, with uncertainty regarding regulations, stakeholder relationships, contracts, and other key variables.

Winston & Strawn's [Blockchain, Cryptocurrencies & NFTs Group](#) hosted a series of virtual programs covering topics impacting the burgeoning blockchain technologies sector. These sessions featured our multidisciplinary team of Winston attorneys who are proactively following trends in this arena.

Sessions took place every Tuesday and Wednesday, 9:00 AM-10:00 AM PT, March 16-April 12, 2022.
