

# What Financial Institutions Doing Business in Florida Need to Know about Florida's "Anti-ESG" Bill

MAY 9, 2023

On May 9, please join Winston attorneys as they discuss Florida House Bill 3 (signed into law on May 2, 2023) and the impact it will have on financial institutions doing business in Florida, including compliance attestations due July 1, 2023.

The bill addresses government and corporate activism by amending certain Florida statutory provisions relating to the Florida financial services sector. Attorneys will explain these amended provisions and their implications on financial institutions, as well as provide critical regulatory and compliance information and considerations, in light of the bill's passing, including:

- the new "unsafe and unsound practice" standard;
- the bill's attestation requirement; and
- potential sanctions and penalties.
