

Winston Contributes to Lexology GTDT – *Competition Compliance 2023*

MAY 26, 2023

Edited by Winston & Strawn Partner Peter Crowther, Lexology’s *Competition Compliance 2023* is part of the prestigious “Getting the Deal Through” series. It provides a quick reference guide for legal practitioners, in-house counsel, and those in business with a side-by-side comparison of recent trends and local insights into the most relevant antitrust regimes around the globe. Each jurisdictional overview considers competition compliance in key areas, including in respect of attitudes to compliance; requirements of compliance programs; dealings with competitors; cartels and leniency programs; dealings with commercial partners; market dominance; mergers and acquisitions; investigations; and key developments and future reform.

The Global Overview section authored by Peter Crowther, is [available here](#). Peter, along with Winston Trainee Solicitor Emily Simmons, also authored the UK chapter [available here](#). Winston Partner Susannah Torpey and Associate Lauren Duxstad authored the USA chapter, [available here](#).
