

Seaport Capital's Recapitalization of Exacom

DECEMBER 1, 2020

Winston & Strawn LLP represented Seaport Capital ("Seaport"), a lower middle-market buyout firm based in New York, in its recapitalization of Exacom, a leader in the multimedia recording market for critical communications. The partnership will help realize a focused growth strategy that will deliver greater value to the public safety, government, utility, healthcare, and other target markets. Based in New Hampshire, Exacom's technology supports the recording of audio, VoIP, data, and text-to-911 into digital formats for data collection, analysis, and management. This new focus will include a simpler approach to managing mission-critical information.
