

Edmentum's Definitive Agreement to Acquire Apex Learning

JUNE 22, 2021

Winston & Strawn LLP represented Edmentum, a portfolio company of The Vistria Group and a global pioneer in education technology, in connection with its definitive agreement to acquire Apex Learning, a Seattle-based industry leader in digital curriculum and virtual learning with over 20 years of deep expertise providing high-quality, rigorous, and teacher-centered programs. Apex's mission of making a difference in education complements Edmentum's drive to amplify teaching and propel student learning forward. Together, these two organizations will support millions of middle school and high school students worldwide. The acquisition follows a strategic investment in Edmentum last year by Chicago-based private investment firm The Vistria Group that signaled new growth for Edmentum to address the learning needs of 21st-century classrooms.
