

Winston & Strawn Sponsors 2023 Infocast CCS/Decarbonization Summit

AUGUST 18, 2023

Winston & Strawn sponsored the [Infocast CCS/Decarbonization Summit](#) held in Houston from July 24-26, which gathered project developers, emitters, providers of tax equity, development capital, and cash equity. Partner Sam Peca moderated a panel discussion.

Sam Peca moderated the panel “Analyzing the Leading US LCFS Programs” discussing low carbon fuel standards (LCFS), which are intended to limit carbon intensity of transportation fuels with a goal of improving efficiency through new and blended fuels. Executives from Low Carbon Fuels Coalition, ORENNIA, and Foss & Company concluded that the opportunity to take advantage of LCFS credits is driving significant interest from potential investors, and that LCFS will be adopted by additional states, with California likely continue leading the way.
