

## SPEAKING ENGAGEMENT

MARCH 12, 2024, 11:30 AM

Winston partner Richard Puttré moderated a panel titled "Transportation Infrastructure: Key Trends around PPP and Asset-based Financing" during the IJ LATAM 2024 Conference at 11:30 AM ET on March 12, 2024.

The session covered various topics, including:

- Examining the transportation project pipeline. Evaluating transactions in rail and toll roads.
- Are we seeing a major shift to carbon-neutral transport systems, zero-emission public transit, and promoting the shift from road to rail? Evaluating the investment gap for transportation transformation.
- How active are transport authorities in the region in seeking financing options to attract private sector finances?
- What role do multilaterals play in transportation development?
- How do lenders look at long financing terms, that are often required for these projects?
- Charting the future of transportation infra finance across Latin America: what are the growth markets?
