

SPONSORSHIP

Winston Sponsors and Partner Brian Ferguson Co-Chairs the 2024 Sedona Conference

MARCH 5, 2024 - MARCH 6, 2024

Winston & Strawn proudly sponsored the 2024 Sedona Conference on Global Intellectual Property Litigation in Munich, Germany, from March 5-6, 2024. Partner Brian Ferguson served as conference co-chair and moderated the in-house counsel panel.

As moderator, Brian led in-house counsel members from various communications and life sciences companies in a discussion on some of the most pressing issues facing in-house counsel today, including using the Unified Patent Court, standards-essential patents and FRAND rate determinations, and overseeing patent litigation on a global scale.

The Sedona Conference brings together leaders in intellectual property litigation to discuss developments in the legal landscapes in the U.S., Europe, and Asia, new risks and opportunities for intellectual property litigation, evolving case law, new guidelines from national competition authorities and other institutions, and legislative initiatives shaping the complex framework for plaintiffs and defendants.
