

Bobby Malhotra Among Founding Members of Legal Data Intelligence Model

MAY 20, 2024

Winston & Strawn partner Bobby Malhotra is among the founding members of the recently launched Legal Data Intelligence model, a new framework created to help the legal community tackle data challenges. The Legal Data Intelligence model consists of almost twenty voluntary founding members from corporate legal departments and law firms. The model aims to empower “the legal industry with a vocabulary, framework, and best practices to manage legal data, and ultimately accelerate the dispensation of legal advice and the pursuit of justice.”

Currently, the model covers use cases under four umbrellas including Disputes and Investigations: Litigation, Regulatory Requests, Third-party Subpoenas, Internal Investigations; Corporate: Contract Reviews, Contract Lifecycle Management, Diverstitures; Data Protection Compliance: FOIA Requests, DSARs, Data Breach Response, Personal Data Identification and Anonymization; and Business of Law: Invoice Review, Operational Efficiency.

The launch has been featured in the following media outlets:

- “Legal Industry Experts Launch ‘Legal Data Intelligence’ With Help From Relativity,” [*Legaltech News*](#)
- “Law Firm, Corporate Leaders Introduce Legal Data Framework,” [*Law360*](#)
