

## Anna Moça

She/Her  
Managing Director  
Enterprise Applications & Data Systems

New York  
+1 212-294-5356

**Anna leads the technology teams responsible for the firm's core enterprise applications, custom-developed applications, and data systems. Her teams ensure Winston & Strawn remains at the forefront of ever-changing technology platforms and capabilities, and that these capabilities are optimized to serve the firm's evolving business needs and market opportunities.**

She has led strategic technology initiatives at Am Law 100 firms, global advertising firms, and real estate technology companies. Her cross-functional experience helps her align enterprise technology with the firm's various operational departments and business priorities. She also has extensive experience in delivering market-differentiating digital platforms to enhance client experience of professional services.

## Credentials
