

Winston Paris advised the founders and shareholders of Bylaw, on its acquisition by Septeo

SEPTEMBER 22, 2025

Founded in 2019 by Adrien Aboudaram and Tuan Ardouin, Bylaw has developed next-generation AI technology to automate the processing of legal and financial documents. With a team primarily dedicated to R&D, the legaltech company aims to become the leading AI reference for regulated professions.

Through this acquisition, Septeo pursues a clear goal: to strengthen its position as the leading provider of software solutions for regulated professions by integrating cutting-edge artificial intelligence technologies into its core business tools.
