

Winston Paris Office Move Featured in *Law.com International*

MARCH 9, 2026

Winston & Strawn's Paris office move to a new space at 106 Boulevard Haussmann was featured in *Law.com International*. The new space is located in a classic Haussmann-era building featuring three-meter-high ceilings, traditional moldings, fireplaces, and mirrors while incorporating a modern design with warm tones to create an inviting and collaborative workplace.

The move reflects the continued growth of the Paris office, which has expanded to 50 lawyers, including 18 partners, in recent years as the firm has strategically strengthened practices such as private equity and restructuring.

Paris Office Managing Partner Jérôme Herbet spoke with *Law.com International* about the new office and said, "Now we're on the same floor. It's much easier to pop into someone's office, to get together." He added that the historic building reflects the character of the city: "You really feel the Parisian spirit."
