

# Winston & Strawn Sponsors Healthcare Business International (HBI) 2026

MARCH 23, 2026 - MARCH 25, 2026

We are proud to be an Elite Sponsor of the 2026 Healthcare Business International Conference in Paris. This must-attend event brings together leading decision-makers from the global for-profit healthcare sector to explore new business opportunities, drive growth, and shape the future of healthcare.

We are particularly looking forward to the high-level networking and strategic discussions that make HBI a premier platform for healthcare investors and operators.

Partners Gilles Bigot and Julie Vern Cesano-Gouffrant will address a key market topic: “What are the key opportunities and challenges for healthcare investors in France in 2026?” They will discuss major market trends, high-growth sectors, and emerging investment models shaping long-term value across the French healthcare landscape.

We are also delighted to co-host the CEO & Investment Dinner for the second consecutive year, alongside FTI Consulting and Lazard.
