

Winston Continues Growth of Texas IP Litigation Practice with Morgan Mayne

MAY 26, 2026

Dallas, TX – May 26, 2026 – Winston & Strawn LLP announced today that Morgan Mayne has joined the firm as a partner in the Litigation Department and the Intellectual Property Practice in Dallas.

Morgan is a patent litigator who specializes in high-stakes intellectual property disputes, using her electrical engineering background to represent a variety of clients in technical industries, including telecommunications, video streaming, semiconductors, consumer electronics, and network security.

Morgan joins the Dallas office shortly after the arrival of fellow Intellectual Property Practice partner Aimee Fagan. Drawing on extensive experience leading all facets of patent litigation and managing complex client engagements and multidisciplinary teams, Morgan further strengthens Winston’s Texas bench and enhances the firm’s nationally recognized U.S. IP litigation platform.

“Winston’s leading IP practice, robust trial bench, and collaborative culture make this a truly exciting next step,” Morgan said. “I look forward to collaborating with my colleagues in Dallas and across the firm, and continuing to provide clients with the high level of service and depth of knowledge Winston is known for.”

Morgan has litigated over thirty cases in the Eastern and Western Districts of Texas, as well as numerous cases in the Northern District of California, the ITC, and other federal courts across the country, adding to Winston’s multi-jurisdiction patent litigation model.

“Morgan is a skilled litigator whose experience in case strategy, team leadership, and client relations, paired with her technical background, will add tremendous value to the Dallas office,” Co-Managing Partner, Dallas and Litigation Department Co-Chair Brett Johnson said. “We are excited for her to join the team.”

“Adding Morgan to the firm marks an important step in the continued growth of our Intellectual Property Practice,” Litigation Department Co-Chair Linda Coberly said. “Her significant experience handling complex patent litigation further expands our ability to serve clients in high-stakes patent matters.”
