

Transactions

In a global business and legal environment marked by change, U.S. and multinational companies, financial institutions, investors, and entrepreneurs face demanding challenges that significantly impact their businesses. Transactions partners advise clients around the globe to navigate these challenges, adapt to regulatory change, and move transactions to the finish line.

Our transactional lawyers represent public and private companies, leading financial institutions, private equity and investment funds, funding sources, investors, and emerging companies in connection with high-profile and complex transactions—from cross-border acquisitions, divestitures, and mergers to joint ventures, spinoffs, and distressed acquisitions. We serve as counsel to boards and special committees and advise issuers and underwriters in connection with initial public offerings (IPOs) and follow-on offerings.

Our finance lawyers have experience across all segments of the debt capital markets. Among our clients are traditional and specialty lenders, hedge funds, private equity and loan funds, collateral managers, trust companies, governmental bodies and agencies, and borrowers. We have advised clients in connection with billions of dollars in leveraged finance and asset-based lending transactions, syndicated capital markets transactions with cross-border and multicurrency components, first-of-kind structured finance transactions involving traditional and esoteric asset classes; infrastructure projects, and complex financings related to a range of other project types.
