

Winston Represents Transilwrap in Acquisition of Dow Specialty Films Business

JUNE 1, 2016

Winston & Strawn's Corporate Department represented Transilwrap Company, Inc., a portfolio company of The Jordan Company, in its acquisition of The Dow Chemical Company's Global Specialty Films business.

Dow's specialty films business has over 50 years of experience providing specialty films used in medical, packaging, and industrial markets and specializes in the production of blown oriented polystyrene films and co-extruded multilayer barrier and polyolefin films for global customers, through manufacturing and R&D facilities in Hebron, Ohio and Drusenheim, France. The acquisition was completed through Transilwrap's purchase of assets and the equity of a French entity related to the specialty films business.

Chicago-based Partners Lou Weber and Matt Costigan, along with Paris-based Partner Jérôme Herbet, represented Transilwrap in the acquisition.
