

George Lombardi Named *Law360* “Intellectual Property MVP”

DECEMBER 11, 2012

Winston & Strawn partner [George Lombardi](#) earned a spot on *Law360*’s list of Intellectual Property MVPs for his [representation of Monsanto Co.](#) in a high-profile patent infringement suit against DuPont Co., which resulted in a record-breaking \$1 billion jury verdict for Monsanto.

In addition to the jury verdict, the case stands out for the complexity and importance of the technology involved, the challenge of explaining it to a jury, and the opportunity to cross-examine DuPont executives.

“The nature of that case was definitely a highlight,” Mr. Lombardi said. “There are a lot of war stories that come out of a trial like that.”

Mr. Lombardi, who is recognized as a leading trial lawyer, sought out the opportunity to take on trials early in his career. This drive, coupled with an environment at Winston that emphasized approaching all cases with “a trial lawyer’s sensibility,” has contributed to his success in the courtroom.

George Lombardi is a litigation partner who concentrates his practice in patent, commercial, securities, commodities, and white-collar criminal cases.
