

Changing Projects Under the California ISO Interconnection Process

JANUARY 18, 2012

Winston & Strawn presented “Changing Projects Under the California ISO Interconnection Process,” on Wednesday, January 18, 2012 at 12:15 (Central).

The California ISO’s evolving interconnection requirements present challenges to developers and power producers as projects evolve in the development process. This presentation will report on the status of current rules and issues that developers face.

This interactive program discussed negotiating the interconnection process to meet evolving project requirements. The briefing focused on:

- Overview of the interconnection process
- Managing multiple projects within a single interconnection request
- Co-tenancy arrangements
- Downsizing and phasing projects
- New CAISO reforms

An eLunch is a complimentary, interactive seminar where participants watch and listen to a presentation given by Winston & Strawn attorneys over the Internet.

Clients and friends of the firm are invited to attend seminars and events. We reserve the right to limit attendance at any firm event.
