

Law360 Names David Greenspan a Top Attorney Under 40

APRIL 10, 2013

Winston & Strawn's [David Greenspan](#) secured a spot on *Law360*'s Rising Stars, a list of notable attorneys under the age of 40. Mr. Greenspan was recognized as one of *Law360*'s top four media and entertainment attorneys.

As a complex commercial litigator who spends his time on traditional antitrust matters, Mr. Greenspan has also made a name for himself within the sports business industry.

"Sports law doesn't refer to a substantive area of law but rather that your clients earn their living in the business of sports," Greenspan told *Law360*. "A sports law case can cover antitrust or labor law, contracts or workers compensation or intellectual property, so substantively it is really all over the map, and that diversity is in large part what makes sports law so challenging and fun."

Mr. Greenspan was recognized by *Law360* for successfully challenging the discipline imposed on NFL players over the [New Orleans Saints' bounty program](#) and for his work bringing antitrust suits that helped end the recent NFL and NBA lockouts.
