William has a bachelor's degree in electrical engineering and concentrates his practice on intellectual property matters, including patent and trade secret litigation. William assists his clients by combining his background as an engineer and software developer with his experience as a civil litigator appearing before a range of courts and administrative agencies.

William has experience representing clients in a broad array of intellectual property litigation matters, including patent and trade secrets litigation before state and district courts, along with *inter partes review* proceedings before the Patent Trial and Appeal Board. He is a member of the firm's Videogame, Gaming & Esports Group, dedicated to providing comprehensive legal solutions to companies in these industries.

Before attending law school, William built web-based applications, with a particular emphasis on applications using PHP, AJAX, and MySQL. William is also proficient in C++, Java, and Python; and he has a working knowledge of FORTRAN and COBOL.
