

Paris Office Wins Three Prestigious *Décideurs* Awards

APRIL 1, 2009

The Paris office of Winston & Strawn LLP recently received three awards from *Décideurs – Strategie Finance Droit* (Decision Makers – Strategy Finance Law), the leading French publication reporting on professional service firms, during the publication's annual awards dinner. The Paris office was nominated in three categories—Leading Partner, Environmental Department, and International Firm.

Nominations were judged by a jury of eight to 10 professionals, including general counsels, who reviewed nominees major achievements and innovations within the past two years. Each nominee received a silver trophy for the nomination, and winners received a gold trophy.

The office's environmental practice group was awarded the gold trophy for their achievements for the second consecutive year. Paris partner Joelle Herschtel accepted the award on behalf of the practice area and recognized all of the members of the Paris environmental practice group for their hard work.

Finally, the Paris office was recognized with a silver trophy in the category of leading international firms.
